

# WE ARE HIRING

## CAD/PLM CONSULTANT SOLID EDGE M/F/D - FULL-TIME

As an innovative IT company based in Hanau/Wolfgang and as a development partner of leading software manufacturers worldwide, we offer unique software solutions for plant and mechanical engineering. Our customers include engineering firms as well as medium-sized companies and global players, which we support with our customized products, such as generative design, digitalization, IoT, AR/KI, PLM/ERP integration, among others.

At UNITEC you will find a professional environment with flat hierarchies. In your field of work, you will always have the opportunity to shape your own daily work routine by contributing your personal strengths and enjoyment. Become an important part of our team with your skills and experience in the field of CAD data management. Be there when we make a significant contribution to Industry 4.0 and the growing digitalization with our forward-looking technologies and ideas.

### YOUR JOB

- Consulting and optimization of business processes of our customers
- Implementation of CAD/PLM systems for our customers
- Trainings and support
- Migration projects for customers

### BENEFITS

Attractive salary; Flexible working time models; home office; fast decision-making processes; open corporate culture; employee events; good transport connections; family-friendly company

### YOUR QUALIFICATIONS

- Completed training as a mechanical engineering technician, technical studies or comparable training
- CAD/PLM experience with 2D and/or 3D systems, ideally in Solid Edge
- Very good knowledge of German and English
- IT affinity
